

R capturing the *Romance*

I am a romantic person.

I love everything to do with love, love letters, smiles and seeing people who are madly in love.

I find couples and their love for each other really inspiring. That is why I am a wedding photographer.

Servicing the Limestone Coast region, Leanne offers a natural, relaxed style of wedding photography.

Depending on your budget, you can choose how much time you require on your wedding day and meet beforehand to work out a schedule and maximize locations shots and photo opportunities.

After the event, you'll receive professionally printed 4x6 inch proofs, as well as these images on high resolution DVD.

Added extras include canvas prints, metal prints, montages, thank you cards and coffee table books.
